I would check with HQ EOC, but I am good with releasing as long as we have some answers as to what we are finding. I reviewed some sediment sample results but these last two (3) emails in this format are not readable by me. Do you have the results for water and sediment in a format I can review them? Are there detections we should be ready to answer questions about?

Thanks

Dave,

The mine adit results are coming back. Are we clear to release validated results? We have some back and the county is asking about them.

I know Terry Smith from HQ looked at the historical mine results, but didn't see anything that jumped out at him so he ok'd release quickly

Thanks,

Mike
